

RETAIL SOLUTIONS

NS40 & NS42

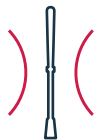

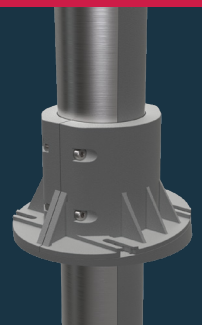

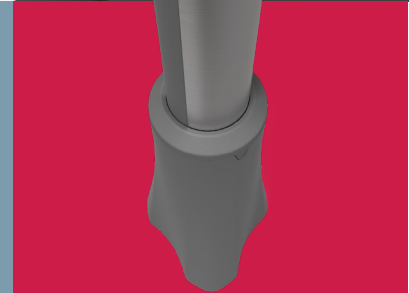

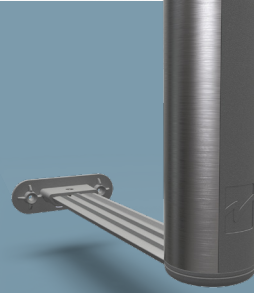

The NS40 and NS42 are designed to take up the minimal amount of room required for EAS in-lane, and is designed around typical grocery fixtures and fittings, such as metal poles or barriers. It is small enough to meet designer needs but still retains an effective EAS deterrent.

NS40 able to be installed on the checkout desk.
NS42 designed to be installed where you want.

Ultra-slim design, 360 circular array technology and Bluetooth connectivity, no floor cutting.

- Discreet but effective in loss prevention
- 360 coverage
- Multi-adaptable
- Pioneers in wireless connectivity (NEO)
- Easy move, easy montage against metal
- Can be easily moved for re-modelling stores
- Can be used for entrances and exits
