

Checkpoint[®]
Wall Mount

CLEAN AND COMPACT

The S20 can be mounted to any solid surface, including metal, with a customizable wall bracket to match trim color options.

UNIQUE CUTTING-EDGE DESIGN:

Elegant to delight store designers but bold enough to deter shoplifters.

CUSTOMIZABLE COLOR PALETTE:

For store design integration.

REAL-TIME DATA STREAMS:

Allows for technical health monitoring to LP anytime, anywhere.

PROACTIVE MAINTENANCE SUPPORT FROM CHECKPOINT:

Over 50% of technical issues resolved remotely. Improved and sustained shrinkage results by ensuring system uptime.

HISTORIC TREND DATA VIA SAAS CLOUD SERVICE:

Provides LP with a rich source of store activity data to add qualitative information for risk level assessment.

NO MORE COMPROMISING

Retailers no longer have to balance Loss Prevention with aesthetics. The S20 is powered by Checkpoint's well proven and respected EVOLVE electronics.

Remote service capabilities and data reporting help to improve up-time as Checkpoint's engineers can continuously monitor the status, enabling issues and trends to be identified in real-time, ensuring the investment is performing efficiently.

S20

CUSTOM OPTIONS

The S20 is available with custom wrap options from vinyl textures, high-resolution digital prints, matte or gloss finishes in any color or pattern.

ZONE 4: LED ACCENT LIGHT
LED accent light strip across the top of the S20 is available in 7 different colors and can be set to permanently on, or on only when antenna is in state of alarm.

ZONE 6: LED AMBIENT LIGHT
The LED ambient light strip down the side of the S20 adds a powerful visual alert when antenna is in state of alarm.

CUSTOMIZABLE ZONES:
